## HIGHLIGHTS OF QUALIFICATIONS

- Proficient in HTML5, CSS3, JavaScript, and React.js, with experience handling various digital file formats in CRUD operations.
- Skilled in product design utilizing wireframes and Figma.
- Familiar with Node.js, .Net, SQL Server, PostgreSQL, MongoDB and REST APIs.
- Experienced in Agile development within Scrum teams, utilizing JIRA, Trello and Azure DevOps.
- Utilized Git and Docker to set up CI/CD pipelines.
- Led sprint meetings and generated documents to ensure clarity in discussions and decision-making.

## WORK EXPERIENCE

**Mobile Application Developer (Volunteer)** Feb 2023 – Jun 2023  
Sport Manager, Zwolle, Netherlands

- Developed a mobile application called '*Sport Manager*' for targeted end users on both iOS and Android platforms using Flutter and Fire base, collaborating closely with clients throughout the process.
- Oversaw sprints and generated documents and charts, including Gantt charts and Burndown charts, to facilitate the management of the overall project process.
- Automatically assign tasks to team members and impose penalties.

**Software Developer (Co-op & Part-Time)** May 2022 – Dec 2022  
Alpha Labs, North York, Canada

- Addressed website errors and deployed updates swiftly in cross-functional team using C# and .NET.
- Developed a controller to support additional functionality and established a corresponding database.
- Created test scripts using JUnit and Selenium to thoroughly conduct unit and integration testing, both automatically and manually.
- Authored structured documents to organize the project workflow and user guide documents providing step-by-step instructions.

## TECH EXPERIENCE

**Hackathon – Bell Geekfest 2022** Sep 2022

- Created a web page draft design in Figma and wireframe.

**Museum of Art website (React.js)** Sep 2022 – Dec 2022

- Got API data through Next.js and deployed on the public web using Vercel.
- Designed and implemented an authenticated user app flow using React.
